

In the Animal Safari project, your child will learn about incredible animals that live worldwide. They will explore various animal habitats and compare the animals that live there with animals in their locality. They will learn how to care for pets and what all animals need to grow, survive, and stay happy and healthy. They will explore animal features and find out how they survive in the wild. They will compare the ways that animals are similar and different.

Children will explore shadows and will see what time of the day is best to make shadows using the sunlight outdoors. Conversations of animal camouflage will expand children's understanding of animal behaviours and the way they live.

## Supporting your child at home

- Go on a local safari to find out about the animals that live in your garden or local park.
- Look at animals from around the world, discuss your favourite animals and find out some fantastic facts.
