

Let's Explore

In the Let's Explore project, children will explore their class environment and school grounds so that they feel settled and happy in their new surroundings. Children will explore new friendships and learn more on how to express themselves using words and expressive arts. They will learn about the local environment and find out about places they have visited on holiday, with great emphasis on our local community. They will look at and create maps for journeys. Children will learn all about the people who help us around the community and will be expecting many visitors throughout the half term and will understand the hard work they do to help the community and keep everyone safe. Many hands-on activities will take place this half term as we learn all about ourselves and others around us.

Supporting your child at home

- Use Google Earth to explore the locality.
- Go on a walk around your local community and talk about the things you see.
- Encourage your child to talk about the activities they enjoy doing at school.
- Have conversations about children's culture and the difference between them and others such as food, clothing, language, country etc.
