

# Marvelous machines

Autumn Term 2

# What's been happening in Reception?

This term we've done lots of learning, playing, sharing, decision making, creative thinking, challenge taking, responsibility sharing, critically thinking and many more. These are the things we do to continue to develop our characters and personalities as we journey through Tarbiyyah!

Look at some of our highlights from this half term....

# All about Autumn

•During this term, we learnt about the environmental changes that occur in autumn. We learnt that in Autumn the daylight grows shorter, and animals prepare for the long, cold months ahead. And that the autumn months are the time of the harvest season;

we learnt how the temperature starts becoming cooler during autumn. Leaves on the trees turn yellow, orange, red, and brown during autumn. We had such a great time this term, we went on an autumn walk to our local park to collect some leaves, sticks, pine-cone and crab apples. And we used all of these things we collected to make some exciting activities, such as leaf printing, autumn soup, autumn tree, and many more fun activities.....

We learnt about what Nocturnal Animal are and why they are nocturnal....

"Ustadha, Nocturnal animals sleep the whole day and wake up at nighttime". Aisha

"Robots are smart machines they can do anything you ask" -Hafsa

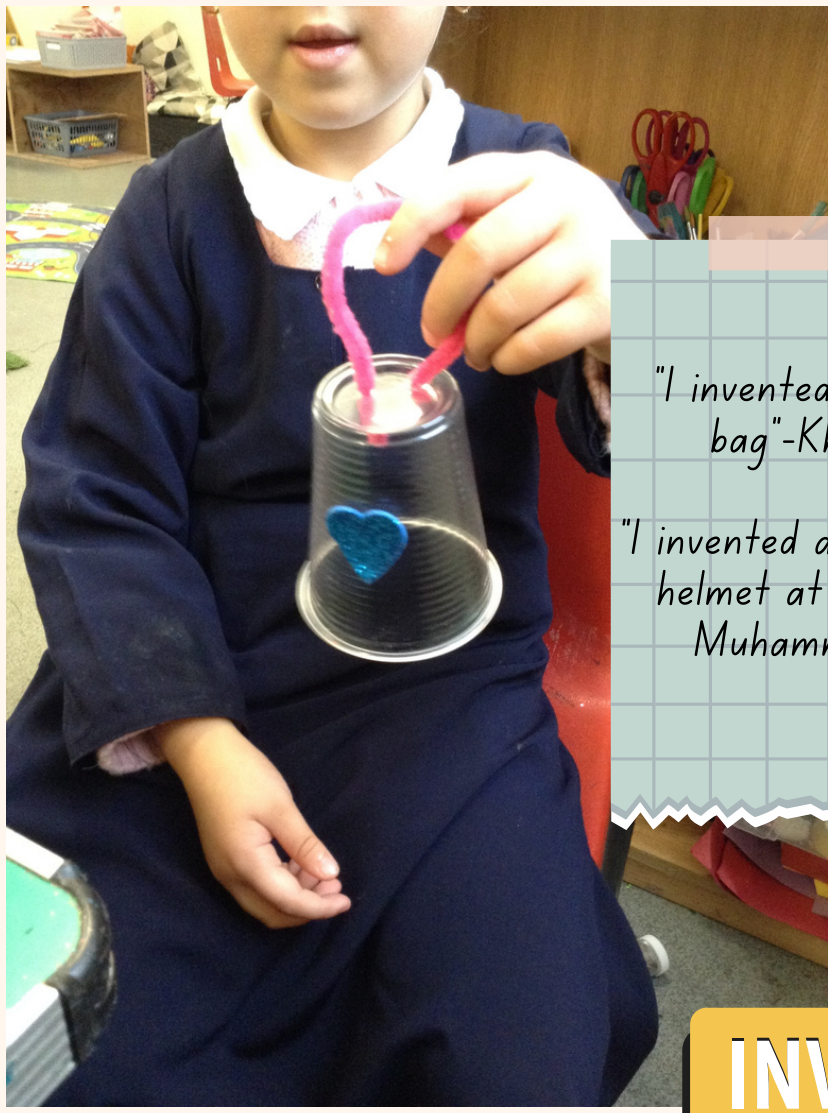

Our topic this term was all about machines. We learnt what machines are, what they do and the different types of machines that we know and use. And for our literacy lesson, we read many interesting books, but two specific books sparked curiosity amongst the children. The 1st book was -no-bot the robot with no bottom and the 2nd book was - Rosie Revere, Engineer.

Intrigued by our lessons, the children got to make their very own robots and created their invention.

# Inspiration

"I invented a specail bag"-Khadidja  
"I invented a car with a helmet at the top"- Muhammad.I

**INVENT**

" Drew electricity"- Ayub  
"my robot is very fast"- Yusuf.Ma

Creating inventions  
Inspired by Rosie Revere

Drawing road maps

As we know using technology can play a role in supporting early communication, language and literacy. It can offer new learning opportunities. There are benefits to using technology both for play and learning.

And for that reason we have integrated the use of technology in Reception, as we believe using technology can help with creativity, problem solving, visual thinking and can make learning fun.

### Benefits of Technology for Early Childhood Learning

"Ustadh, look I made anaeroplane"-Iyaad

"I'm making Tarbiyyah primery school" -Fatimah

Being constructors, builders and inventors! the children used their imaginations to create wonderful things, they were very creative and imaginative as they worked in groups and pairs to create incredible things

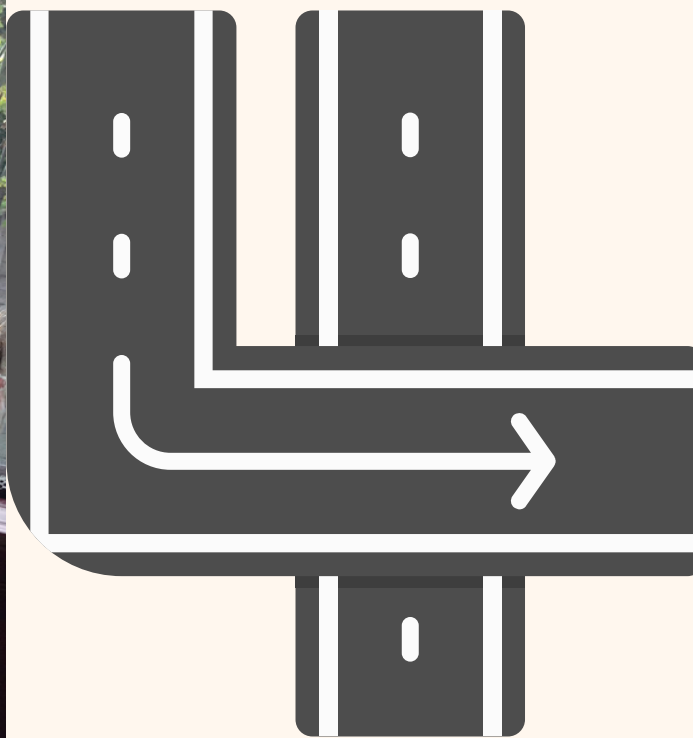

working together to build a house

Taking turns to be bus/train drivers

"this was the best day ever"

cooking in  
Reception

We made yummy  
toast, chocolate nest  
and autumn salad.  
And had delicious  
hot chocolates

Reception had so much fun playing with the snow. We played snowball fights, built snow men and many more...

The last exciting day of the term!

we had such a lovely day Alhamdulillah. We visited our local soft play, had a class party and ate yummy food. And we finally got to say one last good bye to our dearest Ustadha Sanaa!

**JUST HAVE FUN**

We really encourage parents to share their child's learning from home via Tapestry or Dojo. This half term we have 3 outstanding parents who have shared their child's learning throughout this half term.

A massive jazakumullahu Khairan to;

Umm Ayah  
Umm Hiba  
Umm Muhammad:k

They are this half term's Home learning Winners!
